## Landscape Design Services

J&L Garden Center has professional staff members able to give advice and guidance to help you, the homeowner. Our services are perfect for designing a small garden area, renovating an existing yard, or designing portions of a new home landscape.

Landscaping with professional help will make yardwork fun. You will avoid many of the common mistakes made by weekend gardeners. You can proceed at your own pace knowing that all your efforts are aimed at a specific goal, or you can have **J&L's Landscape Department** do the work for you and get faster results.

**J&L Garden Center offers free In-Store Customer Service.** This customer service involves all the sales help the individual needs while walking through the nursery, as time permits. No design details or sketches are included.

The customer should bring (to the store) all measurements and pictures necessary to give an accurate description of the area. Our experienced sales staff will walk through our nursery, giving suggestions and ideas of what you may wish to plant. Time is limited according to the staff's schedule and to the customer demand of the day.

**In-Store Consultation services are also available,** as time permits, with a \$50.00 per hour fee. This service is only for small gardens, or individual planting areas; not for a complete yard design. This service includes individual attention, with a nursery designer, and sketches or designs as needed.

However, if a complete yard design is desired, the customer should use either our **Home Consultation Service** or the **Landscape Architect Design Service**.

### Bids and Estimates

**J&L Garden Center offers Free Bids and Free Estimates when a detailed, written plan is provided.** Without a written plan, a designing fee may be required before an estimate can be given. J&L Garden Center wants you, the homeowner to be completely satisfied with the work we provide. We want you to understand exactly what services we can provide and what the cost will be.

### Nurseryman's Home Consultation

#### What is it?

1. A landscape consultation service provided by one of our professional garden designers.

2. An economical landscape consulting service geared to small garden areas or renovating existing landscapes.

3. A service that consists of a one hour consultation with you, at your home, to provide suggestions and sketches. (Detailed designs may be provided at an extra cost.)

4. You should have a plot plan drawn to scale prior to the scheduled appointment. A plot plan saves a lot of time both for you and the nursery person.

5. Call to set up an appointment.

#### What will it cost?

1. \$85.00 per hour. (minimum charge)
2. Detailed sketches and designs from a consultation visit, or from a plot plan (with photographs) brought to the store, are available at a \$85.00 per hour designing charge.
3. A one hour consultation is sufficient for most yards.

### Landscape Architect's Design Service

#### What is it?

1. A service provided by an independent, **Licensed Landscape Architect**. We do not have a licensed landscape architect on staff at J&L.

2. A complete landscape design service geared towards new homes, commercial buildings, and for major landscape renovation projects.

3. The landscape plan will recommend specific types of plants and the exact location of each plant.

4. Detailed drawings may be included, as needed, to show patios, decks, retaining walls and grade changes, garden ponds, and other landscape features.

5. The design process consists of as many visits to your home and consultations as the architect feels necessary.

6. A complete sprinkler system design can be included with the landscape design.

#### What will it cost?

Each Landscape Architect determines their own fees. We do not have one specific Landscape Architects that we recommend, but there are several excellent landscape architects listed in the local phone books.
